BEHAVIOR MODIFICATION

SUPER MAX OHIO LEVEL System

By: JASON ROBE

"FOR Those about to Die we salute you."

2014

The dictionary defines Behavior Modification as follows, "The direct changing of unwanted behavior by means of BioFeedback or Conditioning."

On The Ohio State Penitentiary Program Station, The Warden gives a Mission Statement that says, "Through The integrity and dedication of each employee, The Ohio State Penitentiary protects and supports The Citizens of Ohio by Managing high-Risk inmates in a safe, humane and secure environment. This is accomplished Through behavior driven Programming, which Facilitates Their Reintegration into A less secure environment."

1 #

are not worthy of it and, indeed, should be actively mistrusted. If, at The same time, The total environment inflexibly provides rewards and punishments only in terms of new behavior and attitudes to be obtained, and provides new human contacts around which to build up relationships, it is highly likely that The desired new behavior and attitudes will be learned."

This my Comrades is The new level system to which we are subjected to today. open your eyes and glimpse This madness for what it really is! "Brain washing" do not become The mouse in The maze trying to find The cheese at The end. Boots down! chin up!

22 #

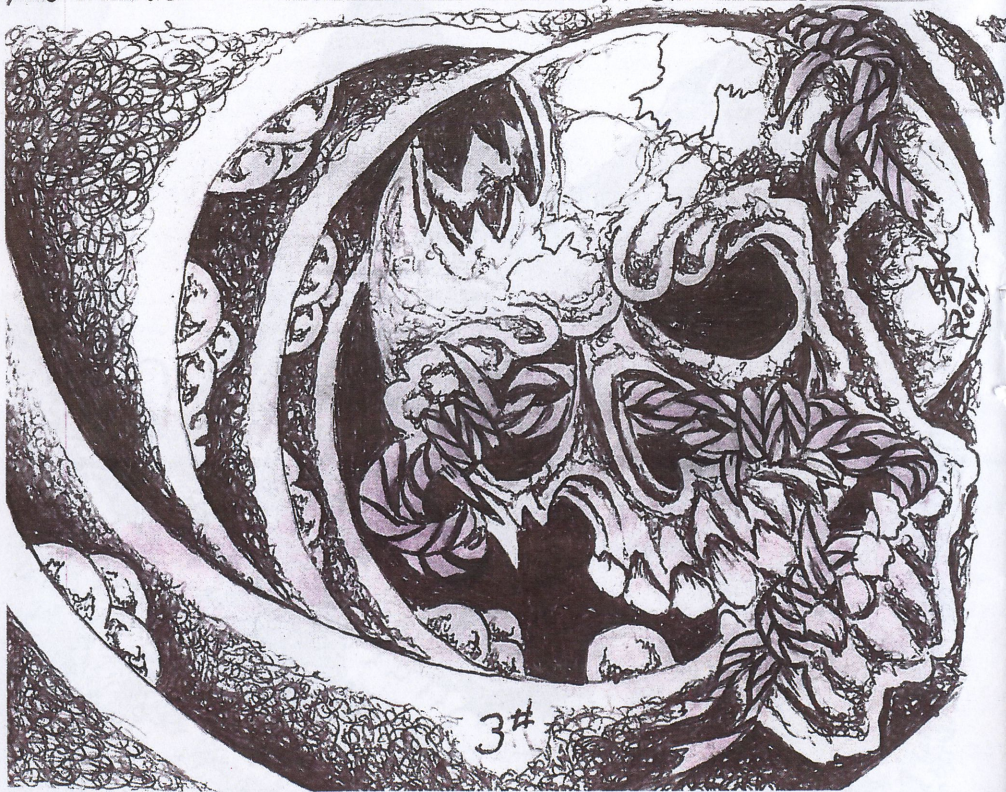

True but sad Fact; Altercations, Arguments over petty things OCCUR under This design as stated by Doctor Edgar Schein in "MAN against MAN; BRAIN WASHING" in order to Produce marked Change of behavior and/or Attitude, it is necessary to weaken, undermine, or Remove The supports to The old patterns of behavior and The old Attitudes. Because most of These supports are The face-to-face Confirmation of present behavior and attitudes which are provided by Those with whom close emotional Ties exist, it is often necessary to break Those emotional ties. This Can be done either by Removing The individual physically and preventing any Communication with Those whom he cares about, or by proving to him That Those whom he respects

O.S.P was opened in 1998, Prison officials sent out memos to All Ohio Prisons to send Their, non-Conformist, Alleged gang members, Jail house lawyers, Revolutionaries, to O.S.P to Fill its 500 beds Super-max Cells, That Cost Tax Payers over 80 million dollars to Build. but Ohio had For over 30 years Housed its Supermax prisoners in J-1, a 20 cell unit at S.O.C.F That Never stayed Full.

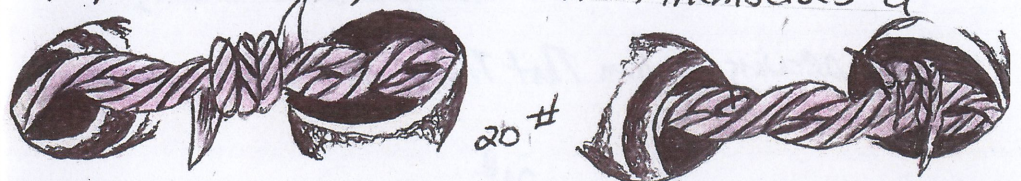

So now Prison officials had to Sweep All Ohio Prisons to Fill Those 500 super-max Cells, Prisoners From Minimum 1, 2, medium 1, 2, Close security and maximum security Prison were gathered up And shipped to Super-max states with No Due-Process or Notice. In 2000 Convicts united to Filed a Class Action suit Against The Super-max Prison "Austin v. Wilkenson"

The Federal Courts Ruled in Favor of The Convicts

Been isolated in This social experiment watching others Fall Victims to this cruel and vindictive game. I've been classified AS SA long termers, given more privileges in hopes to further modify my thought process I have Consistly Fought to be released from This Super-max also matter the Behavioral modification Tactics, my eyes ARE open to what This is really about. I will not be a Puppet, Conformist or sale out For the Powers That be in There social experiment. it saddens me when I see other break from This designed enviroment, men Throwing urine a Face upon One another AS The Police sit back and laugh and egg it on until it becomes a physical Conflict, Others Cut on Themselves a

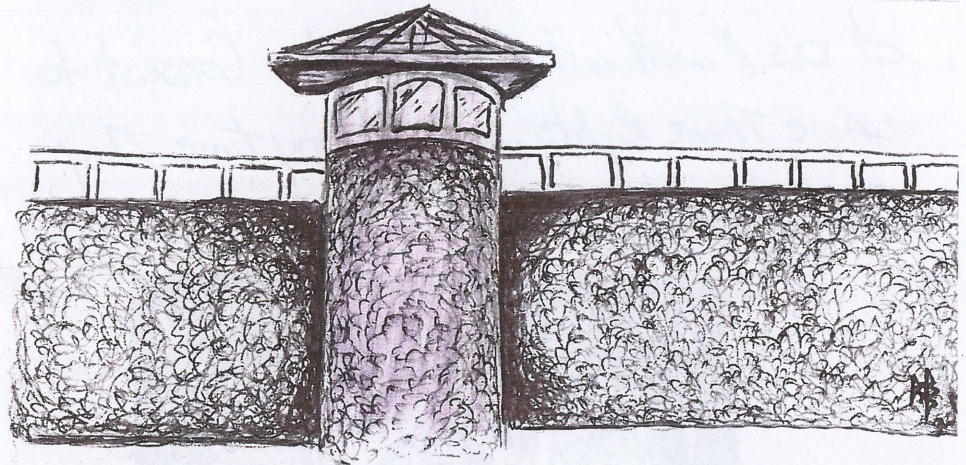

MAN; BRAIN WASHING" by EDGAR SCHEIN
Ph.D.. Thus The stage was set to Torture
and modify OUR Thought Process to infect
Future generations to Come. I beleave This
seminar brought About The Super-MAX
generation we now live in. After I read
This Manifesto years ago it opened my
eyes/mind to The actual Conditions of my
Confinement for what it Truely is, making
it easier for me to deal with my Journey
Through Solitary Confinement Since 1993 I have

Judge Gwinn Ruled that O.S.P was A
"Significant and Atypical Hardship" Not
only That but The building structure and design
Created This; Thus Convicts Must be given
Due Process of law to be housed at O.S.P

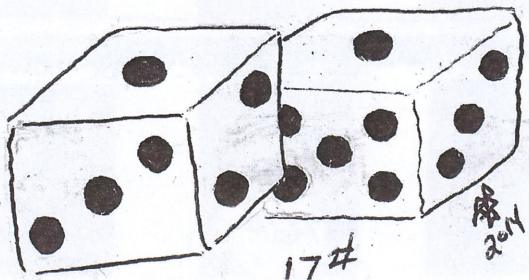

Notice of Facts, evidence against Them, a Right
To Call witnesses and Appeal Rights to a 3 Person
Panel. The Prison started to empty out, it
went From 500 Prisoners to under 70 in
8 months; Out of The Four Cell blocks, only 1
Remained open. The Prison officials Needed a

4#

MASTER plan to keep Their Super-MAX prison open. They decided to send level 4 inmates "maximum security" to fill those 300 empty beds. This was challenged by the attorneys in the Austin v. Wilkeson Case. The Federal Judge ruled that no inmate on level 4 could be housed at O.S.P. without their written consent to waive their rights, and at any time they could request to leave O.S.P.

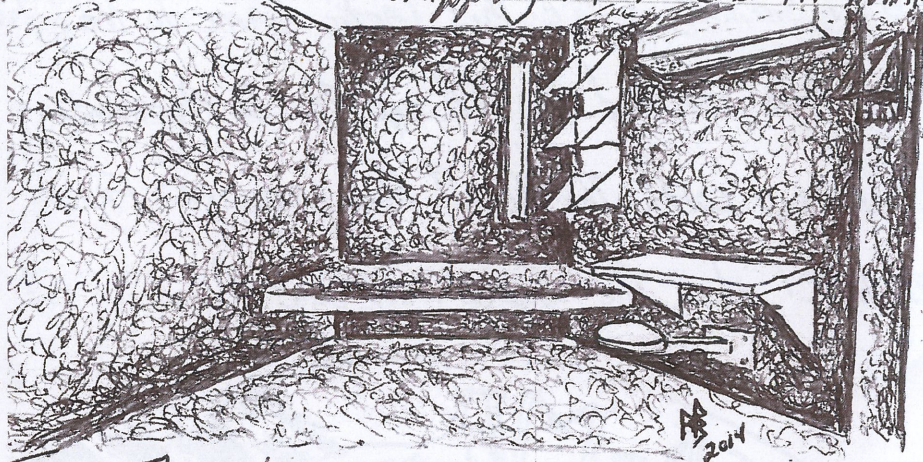

placed before this Collective to change Prison
policy For The Future of Corrections in
The United States, "MAN Alone, Sensory
Deprivation and Behavioral Change" by
Herbert Leidenman M.D. and "MAN in
His Social environment; Social Structure and
Behavioral Change" By Bernard Kramer, Ph.D.
Also "MAN'S Adaptive Processes; Cultural
influences on Behavioral Change" by David
Landy, Ph.D and Finally "MAN against

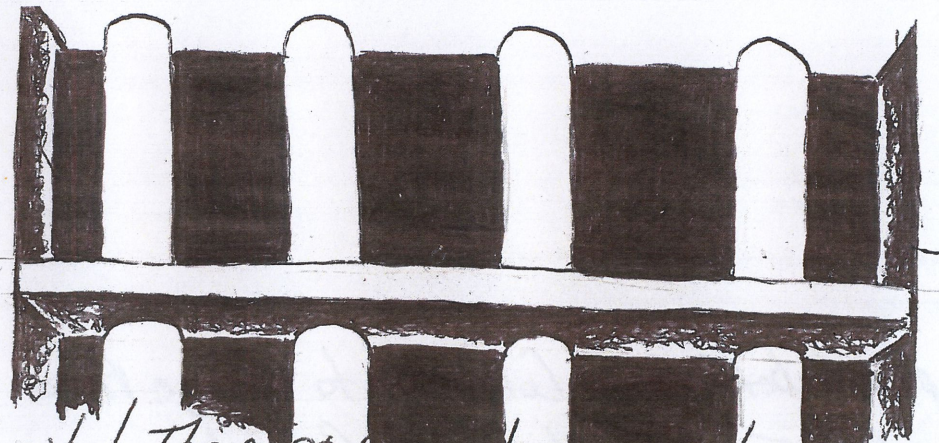

But of Course Prison Officials started moving 4b
inmates to C.S.P. without their consent and/or
under threat that they would never get out of
4b at S.O.C.F.; Once this tactic came to the light
the state decided to fill up the 2 remaining
blocks up with the Death Row prisoners from
MAN.C.I., Now the Super-max was running at

a proper level of Prisoners. Once The Federal lawsuit was over and done with Prison officials Revealed Their True Master plan. They moved out All The Death Row prisoners to Chillicothe prison, and started shipping in 4b and 4A inmates

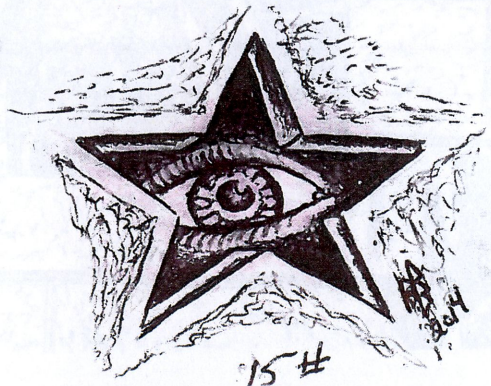

from other Ohio prisons, some with notice who signed these waivers and agreed to be housed at O.S.P under these conditions, and some who to this day do not realize they can request to leave at anytime by filing a internal complaint to the unit manager demanding transfer out of O.S.P under

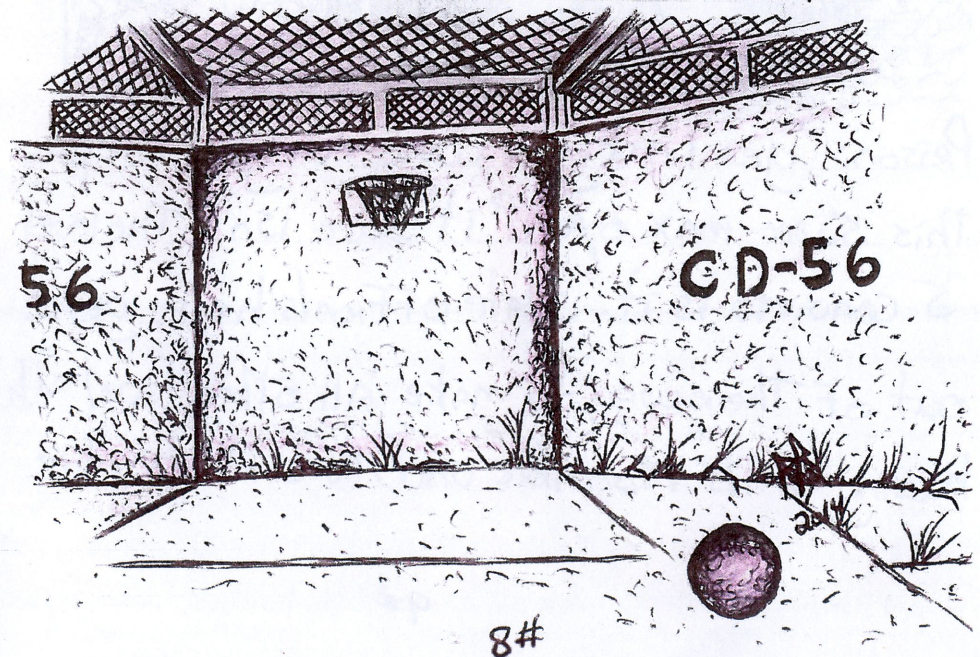

which their ~~behavior~~ ~~of~~ unsocial or anti-social behavior can be modified. Behavioral change takes place in response to stimuli. Providing the stimuli necessary to produce the desired responses requires a broad knowledge by the correctional worker of the behavioral sciences. Thus we as prisoners have become a experiment to be molded and modified. These are the theories

This is The struggle Ohio prisoners now have before them. I believe first they as a whole must understand the TRUE nature and design of the confinement by the powers that be. On April 22, 1961 The Federal Prison services, Executive Development Program, Symposium, took place, The Topic was "The Power to change Behavior", Conducted by The Bureau of Prisons at an Associate Warden Training Program. They go on to say "effective Treatment of individuals confined in Correctional institutions depends upon The degree to

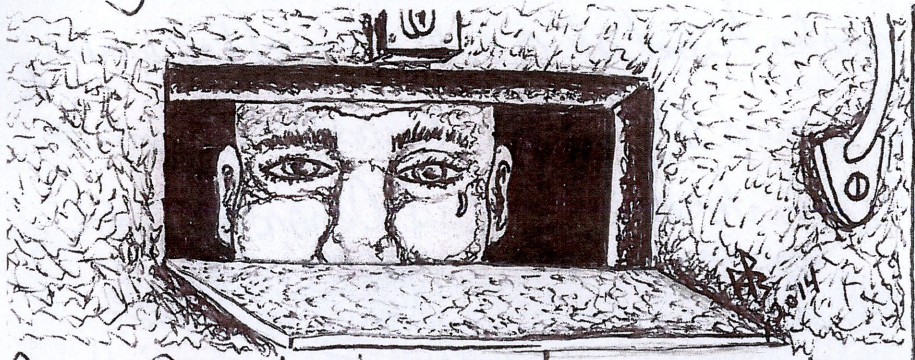

Austin-V-Wilkens, and state they no longer want to be housed at O.S.P. under a significant and atypical hardship in violation of their Constitutional Rights. As it stands O.S.P. has 4 housing units, A-block, B-block, C-block and D-block, only one block houses super-max convicts around 80, There are over 300 level 4 inmates housed at O.S.P., 5 level 1 minimum and around 6 Protective Custody ("P.C.") inmates. All Volunteers! who can demand to leave

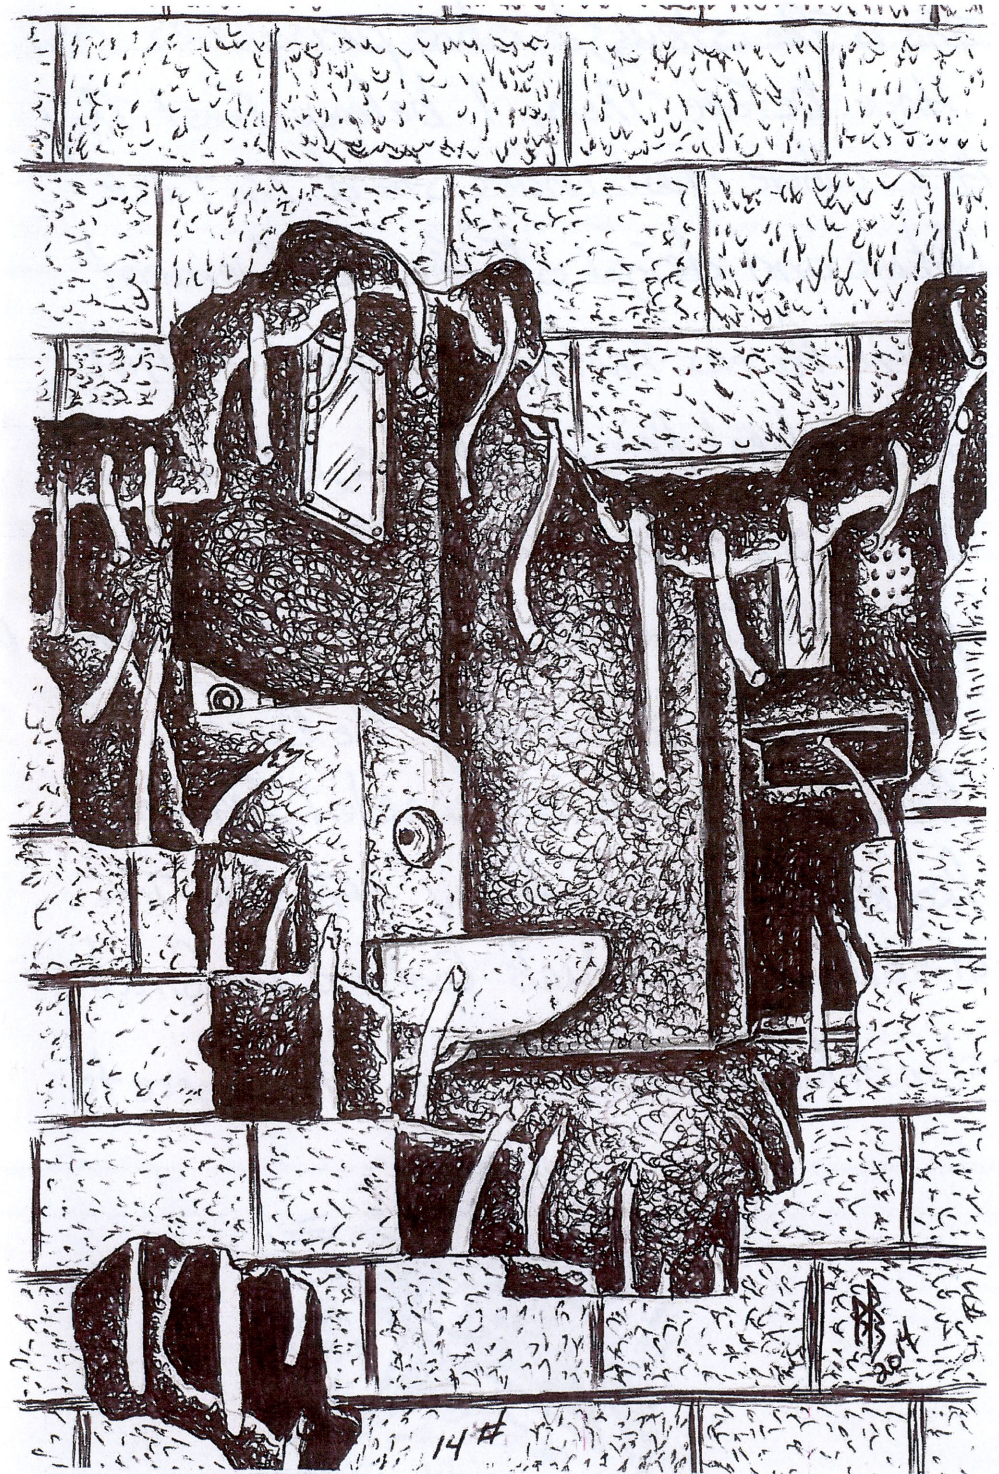

At any time, Imagine in a perfect world all
non level 5 prisoners Demanded Transfer?

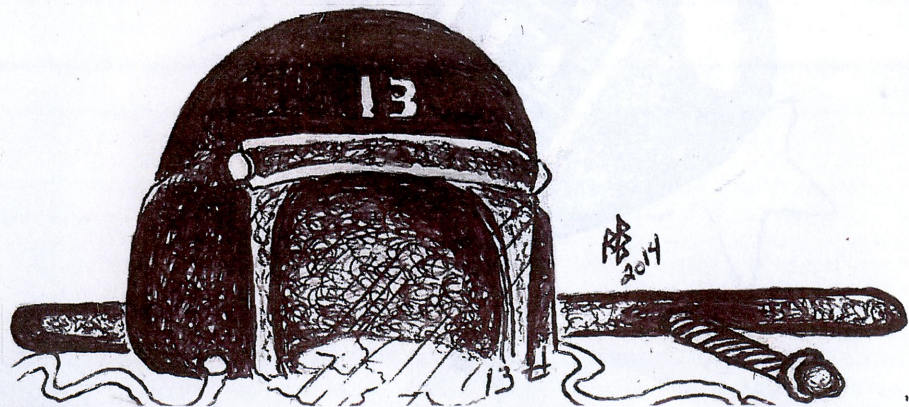

What would the Powers That be Rush to Find
out why? if no level 4 prisoners Agreed
To be housed Here what would happen
To chaos Super-MAX Prison? would
it shut its doors and Close? and Thus
Freeing the level 5 Comrades to level 4

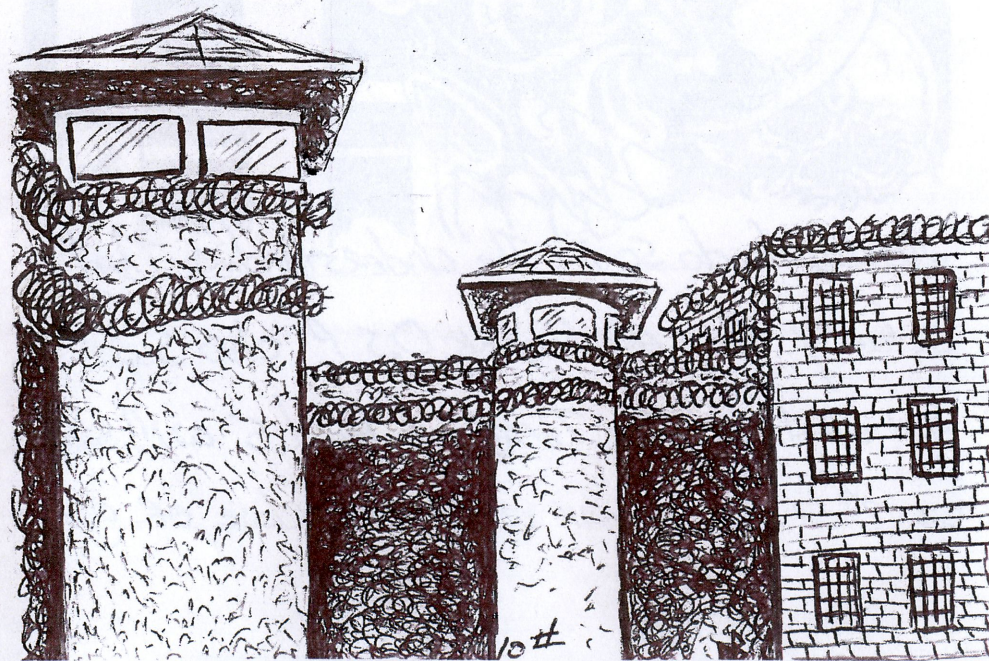

Prisons? yes I ask you who really is keeping
this Super-max open? it sure isn't the level
5 convicts is it. State officials have gone
out of their way to make all other level 4
housing units miserable and more restrictive

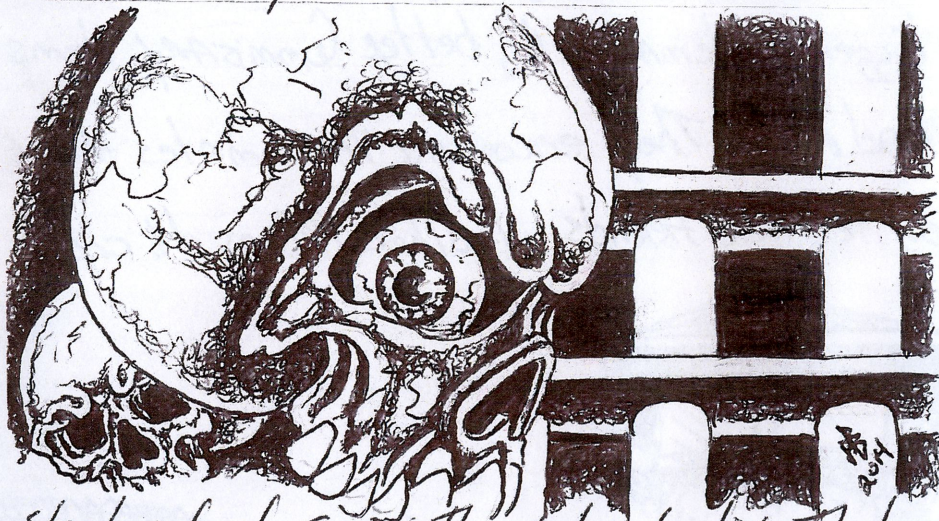

Consciousness must occur and The blinders lifted From The Prisoners in level 4A, 4b and a demand to be Treated like men and not as Ponds in a chest game not of Their design. but First The petty inner Conflicts between inmate/convicts must stop or put on hold in order to not Fall For The oldest game in The World "Divide and Conquer", open your eyes and realize all is not hopeless and you actually do have a say in your life and your not just a number or a inmate.

in other Ohio Prisons by Restricting Property and Commissary items; Causing Violent and Hostile living environments For level 4 inmates, Then The true behavior modification Comes into play, inmates housed at O.S.P 4b Can Have T.V's, IF you don't own one The Prison will give you one, better Cells bigger singleman Cells, better Commissary items and More; They encourage The inmates to write Their Friends in other Prisons 4b and

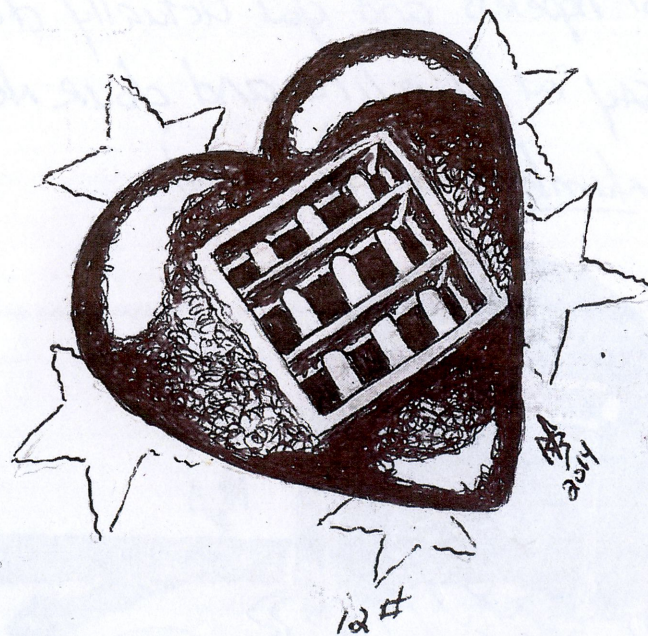

enlighten them to how much better it is on
46 at O.S.P Than anywhere. yes now comes
The Flood of Request to Transfer to O.S.P
only to be caught up in a trap set by
The Powers that be in Their Master plan
To keep O.S.P open. Once The level 4 prisoners
understand They Have The Power to leave and

standup to do so in The understanding That
actually They Are keeping O.S.P Ohio Super
max open and The Threat of level 5 will stop
as Their Super-max will either close or go

11#

out of its way and Turn This Prison into
a level 4 Prison For The Northern Ohio
District, Build a Proper out side yard with
grass etc, They Have The Room to do This
behind The Prison; Put prisoners to work
in The kitchen and Other Jobs The state
Contracts out to out side people to Run. give
level 4 Prisoner better Visitation Rights and
group Recreation etc; my wouldn't That be a
beautiful Thing! but First a Collective
